

RAIDIER

Defeat system-crashing heat with **Raider** – the all-new performance chassis design from BitFenix. Unlike most other chassis that include run-of-the-mill fans, Raider comes equipped with three premium 120mm BitFenix Spectre™ Fans and a contoured mesh design for unstoppable cooling performance. The first chassis to offer four SuperSpeed USB 3.0 ports, Raider is ready for the future, offering all the connectivity you need for your SuperSpeed peripherals. The integrated fan controller controls up to five fans, allowing you to customize your system's cooling profile to suit the task at hand. DIY niceties like filtered intakes, tool-free drive locking mechanisms, rubber grommets and plenty of space behind the motherboard tray help you get up and running headache-free, and a removable hard drive cage wall means that Raider even accommodates expansion cards up to 38cm in length! To top it all off, Raider is coated in signature BitFenix SofTouch™ Surface Treatment for a quality matte finish and one-of-a-kind feel. Unstoppable performance and quality – that's BitFenix Raider.

Highlights

- **Four SuperSpeed USB 3.0 Ports** – Future-proof with connectivity for all your SuperSpeed devices
- **Maximum Airflow Design** – Smooth mesh design and compatibility with huge 200mm fans
- **BitFenix Spectre™ Cooling** – Three 120mm all-black Spectre™ Fans included
- **Integrated Fan Controller** – Controls up to five fans for customizable cooling
- **Superb Expansion** – install up to four 5.25", six 3.5", seven 2.5" devices and even the longest expansion cards
- **BitFenix SofTouch™ Surface Treatment** – luxurious matte finish and soft feel
- **Trouble-free Installation** – Tool-free drive locking mechanisms, rubber grommets and filtered intakes
- **Unstoppable Value** – Premium features at an unbelievable price
