With the input from some of the world's renowned enthusiasts, we have developed the BitFenix Shogun be an extremely desirable chassis with many novel features. Carrying on the theme of simplicity from our famous Shinobi, Shogun is the newest flagship design model from BitFenix. May it be performance or looks, Shogun is the best of both worlds. With the top level aesthetics, novel features and extreme compatibility BitFenix Shogun is one of the most advance and user friendly chassis in the market.

Dual Tempered Glass

BitFenix Shogun features two high-quality tempered glass on either sides to showcase the beautiful components. With semi tinted and fully tinted tempered glass you can hide the cables behind the motherboard tray. The semi tinted glass can showcase the components while giving it a lite shade to emphasize the premium looks.

BITFENIX

Thick Aluminum Panels

To add to the premium elegant look of the Shogun, the top and bottom is wrapped around with thick curved aluminum panels. This gives strength as well as clean look while keeping the dust away from the PSU as well as the top ventilation mesh.

BITFENIX

BitFenix Quick Custom EATX

Thanks to 'BitFenix Quick Custom Design Technology' Shogun sports modular design for high end hardware. BitFenix Shogun supports up to EATX motherboards with customizable Motherboard tray for easy cable routing. The included Quick Custom EATX Shield can be used only when a EATX motherboard installed to route cables neatly. The chassis is designed with 25mm of space behind motherboard tray and plenty of cable tie spots for cable management.

Extreme Cooling Capacity

Shogun can host up to radiators of size 360mm or 280mm on the top panel, 280mm or 240mm on the front and 140mm or 120mm on the rear panel. These can be easily accessed with snappy front and top panels that also comes with dust filtered ventilations that can be easily washed along with the panel itself.

With the 'Quick Custom Design', the hard drive cages supporting up to 6 HDDs or 8 SSDs (+2 Chroma SSDs) can be easily removed to accommodate any other component or moved to any location on the mounting rails to satisfy your needs.

BITFENIX

BitFenix Shogun comes with three new 'GPU Safe' Graphic card supports. They can be easily configured to support various GPU models. This removes any possible damage that could happen to the electronic components due to bending.

Along with the Shogun comes two all new SSD Chroma Modules certified by "ASUS Aura". Thanks to quick custom design, the LED strip inside the Chroma modules can be easily adjusted to light up the SSD from side or bottom. The whole bracket can be easily and quickly removed thanks to 'BitFenix Quick Custom Design'.

BITFENIX

Shogun

Chassis Type		Super Mid-Tower
Motherboard		E-ATX/ ATX/ M-ATX/ Mini-ITX
CPU Cooler		Up to 175mm height
Graphic Card Length		Up to 410mm
Power Supply Length		Up to 250mm
Storage Capacity	5.25" ODD	0
	3.5" HDD	6
	2.5" HDD	6+5
Cooling Capacity	Front	Up to 140mm x 2 or 120mm x 3 (2x120mm Included)
	Rear	120mm x 1 (Included)/ 140mm x 1
	Top	Up to 140mm x 2 or 120mm x 3
Radiator Capacity	Front	Up to 280mm x 1 or 240mm x 1
	Rear	120mm x 1/ 140mm x 1
	Top	Up to 360mm x 1 or 280mm x 1
Front I/O port		USB 3.0 x 2, USB 2.0 x 2, HD Audio MIC & Headphone
Dimensions(WxHxD)		250 x 565 x 525mm

Extras

• Elegant Aluminum Design
• Dual Tempered Glass Side Panel
• Quick Custom storage design
• Quick Custom SSD Chroma
• Quick Custom EATX Shield
• BitFenix Chroma Control and SSD Chroma
• Advance design GPU Safe
• Support Graphic Card Length up to 410mm
• Up to 25mm Cable management Space
• 360mm Radiator Support at Top
• 3 pre-installed Fans

Materials

• Aluminum
• Tempered Glass
• SECC Steel
• ABS
