

ENSO MESH Front Panel

Product kit

Sleek Design With Mesh Front Panel

The clean design concept is well balanced between a perfectly organized interior structure and a sleek exterior design.

ENSO MESH Front Panel

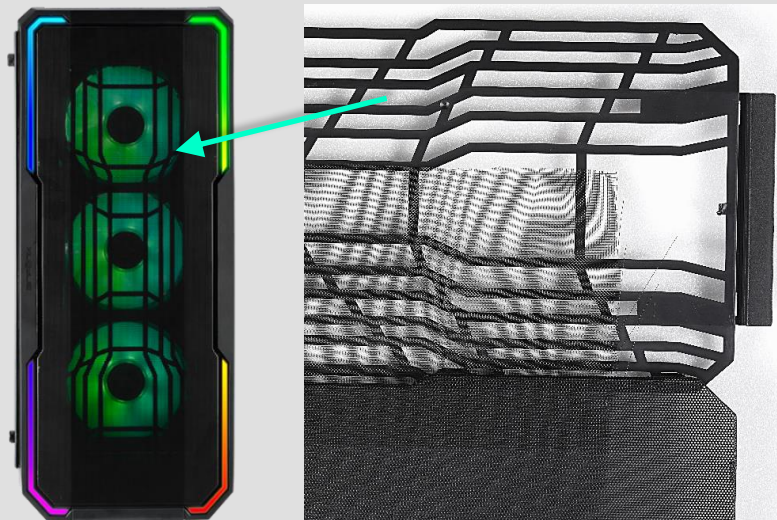

AURA SYNC 3 Pin Addressable RGB Technology

The RGB illumination of the ENSO MESH Front Panel supports the latest ASUS AURA Sync 3 pin addressable RGB motherboards, currently found in high-end segment. It enables users to coordinate multiple color lighting on different devices, including the all new Alchemy 3.0 addressable RGB strip, all controlled and synchronized by the ASUS AURA software bundled with Asus AURA SYNC 3 pin motherboards.

ENSO MESH Front Panel

Easy Clean With Removable Dust Filters

To keep the interior of the ENSO MESH Front Panel dust-free, multiple filters installed in front of the front panel. The front filter is attached via magnets and can be easily slid off to clean it.

ENSO MESH Front Panel

Easy Clean With Removable Dust Filters

Step1.

Please target the 2 tenons on the front panel

Step2.

Please insert the filter into tenons and let the magnets attach to front panel
