

BitFenix Aurora

(10th August 2016): With simplicity and elegance in mind, BitFenix introduce you Aurora chassis, midnight black and arctic white. Aurora is designed for high end aesthetically pleasing builds with water-cooled systems carrying an elegant theme of curved lines and glass windows with ***“BitFenix RGB Chroma Control”*** and ***“BitFenix SSD Chroma”*** certified by ***“ASUS AURA”*** letting you take control of the illumination of your system.

BitFenix Aurora comes with two high quality tempered black glass windows on either sides. The left side glass is tinted crystal clear to give a premium look to the system while showcasing the high end hardware of your build. The right side is tinted completely dark to have your cable management behind motherboard tray hidden. With tempered glass panels, cable management need to be easy, and with the large space behind motherboard tray and cable tie brackets, Aurora provides excellent cable management room. Tempered glass panels are designed to be held to the chassis when removing the screw preventing accidental falling. Thus the user only need to support them while removing the screws.

“ASUS AURA” certified ***“RGB Chroma Control”*** and ***SSD Chroma”*** are co-developed with Asus Republic of Gamers giving you the ability to customize the SSD illumination colors with ***“AURA RGB illumination”*** on motherboard and ***BitFenix Alchemy 2.0 Magnetic RGB LED colors***. The controller when not connected to an ASUS motherboard, can be used independently with the hardware button to cycle through the included presets.

BitFenix Aurora supports up to EATX motherboards while having plenty of room for high end water-cooling builds. Both the included hard drive cages are modular giving the user the ability to configure the system to their needs. This clean layout gives space for full length graphic cards and fully water-cooled components. The smart layout allows the user to use up to two 280mm radiators on top and front and a 120mm radiator at the rear while having enough space to mount the reservoirs and other water cooling hardware. With a tool free hardware mounting design, Installing and altering system configurations is now a breeze.

BitFenix Aurora Product Specifications are as follows:

Aurora		
Motherboard SPEC		E-ATX/ ATX/ M-ATX/ Mini-ITX
CPU Cooler		Up to 160mm height
Graphic Card Length		Up to 400mm
Power Supply Length		Up to 220mm
Storage Capacity	5.25" ODD	0
	3.5" HDD	2+2
	2.5" HDD	2+1
Cooling Capacity	Front	120mm x 2 or 140mm x 2
	Rear	120mm x 1 (Included)
	Top	120mm x 2 or 140mm x 2
Radiator Capacity	Front	280mm x 1 or 240mm x 1 or 120mm x 1
	Rear	Up to 120mm x 1
	Top	280mm x 1 or 240mm x 1 or 120mm x 1
Front I/O port		RGB Chroma Control, USB 3.0 x 2, USB 2.0 x 2, HD Audio MIC & Headphone
Dimensions(WxHxD)		215 x 490 x 520mm
Extras		
<ul style="list-style-type: none"> • BitFenix RGB Chroma Control & SSD Chroma Asus Aura Certified • 20-25mm Cable Management Space • Graphic Length up to 400mm • Support Dual 280mm radiator • Removable HDD cage • Removable PSU Dust Filter 		
Part Numbers		
<ul style="list-style-type: none"> • Aurora Window Black BFC-ARA-300-KKWSK-RP • Aurora Window White BFC-ARA-300-WKWKK-RP
