With simplicity and elegance in mind, BitFenix introduce you Aurora chassis, midnight black and artic white. Aurora is designed for high end aesthetically pleasing builds with water-cooled systems carrying an elegant theme of curved lines and glass windows with "*BitFenix RGB Chroma Control*" and "*BitFenix SSD Chroma*" certified by "*ASUS AURA*" letting you take control of the illumination of your system.

Tempered Glass Side Panels

Aurora comes with high quality temper glass side panels on either sides of the chassis. One is crystal clear to showcase the hardware while the other is 100% dark tinted to hide the cables behind motherboard tray.

BITFENIX

Compatibility

BitFenix Aurora supports up to EATX motherboards while having plenty of room for high end water-cooling builds. At the back of the motherboard tray, Aurora leaves plenty of room for cables management to support high end components and PSUs

BITFENIX

Compatibility

Both the included hard drive cages are modular and tool-free giving the user the ability to configure the system to their needs. Apart from these hard drive cages which accommodate up to 4 HDDs, the Aurora comes with three modular SSD brackets.

BITFENIX

Compatibility

The smart layout allows the user to use up to two 280mm radiators on top and front and a 120mm radiator at the rear while having enough space to mount the reservoirs and other water cooling hardware. With the included reservoir mount, user can easily mount water cooling systems without modifying the chassis.
