

Alchemy 2.0 Magnetic RGB LED Pack – 40cm X 2

BitFenix Alchemy 2.0 Magnetic RGB LED-stripe Pack – 40cm X 2 takes PC DIY illumination to the next level with static RGBs, increasing lighting possibilities with multiple colors on one strip. Being an upgrade from the Alchemy 2.0 Magnetic LED Strips, the upgraded version comes with the high build quality and durability our users are accustomed to, modders and gamers alike.

Static RGB

AURA SYNC 4 Pin Static RGB Technology

The Alchemy 3.0 Addressable RGB LED-stripe Pack – 40cm X 2 has its name from the featured LEDs, which are individually addressable, thus allowing pre-programmed multi-color rainbow modes when attached to the optional controller or even programming of each individual LED when attached to one of the latest ASUS AURA SYNC motherboards with 3-pin addressable RGB support.

TriBright™ LED Technology

The Alchemy 2.0 Magnetic RGB LED-stripe Pack – 40cm X 2 feature the TriBright™ LED Technology known from previous BitFenix RGB products, thus providing higher color saturation, increased brightness and a longevity. Further, the light is more evenly scattered, casting softer shadows, increasing the overall illumination effect. The surface of each strip is coated in a clear rubber for short-circuit protection and easy maintenance.

Modular Design & Convenient Installation

The Alchemy 2.0 Magnetic RGB LED-stripe Pack – 40cm X 2 are delivered with 50cm long cables and modular components, assuring clean cable management and easy cable routing. Further, the LED Strip and the optional controller are equipped with high-quality magnets, allowing easy installation and relocation around all metal panels in the chassis. The 3M adhesive strip can be used for firm mounting on most flat surfaces.

Remark

To avoid system instability and possible data loss do not attach these magnetic LED strips directly to DRAM, SSDs or HDDs. The pin assignment is different between normal single color LED strips, RGB LED strips, RGB+W LED strips and Addressable RGB LED strips. Alchemy 3.0 Addressable RGB LED Strips & Alchemy 2.0 Magnetic LED Strips are not compatible with RGB controller and RGB+W controller. The controller of Alchemy 2.0 Magnetic RGB LED strips is not compatible with Alchemy 3.0 Addressable RGB LED strips. Wrong connection will cause damage to the product. Please make sure the products in your LED strip chain are compatible. BitFenix believes you will enjoy the user experience once you've chosen BitFenix modding products.

Specs

Magnets	Black Sintered NdFeB Permanent Magnets		
LED Type	5050 TriBright™ SMD		
Lumen	60		
Color Rendering Index	~80		
Angle	120°		
Voltage (v)	12V		
Flex PCB Quality	1oz copper		
Protective cover	High-Clarity Polyurethane		
Power Cable Length	50cm - 20"		
LED Strip Width	10mm - 0.4"		
LED Strip Thickness	3mm - 0.12"		
		Alchemy 2.0 Magnetic RGB LED Strip - 40cm	
LEDs	21		
Magnets	4		
Wattage (W)	4.2
